# STRUCTURE OF PROGRAMMES AT CPHBUSINESS

At Cphbusiness, we offer business programmes with a flexible structure.

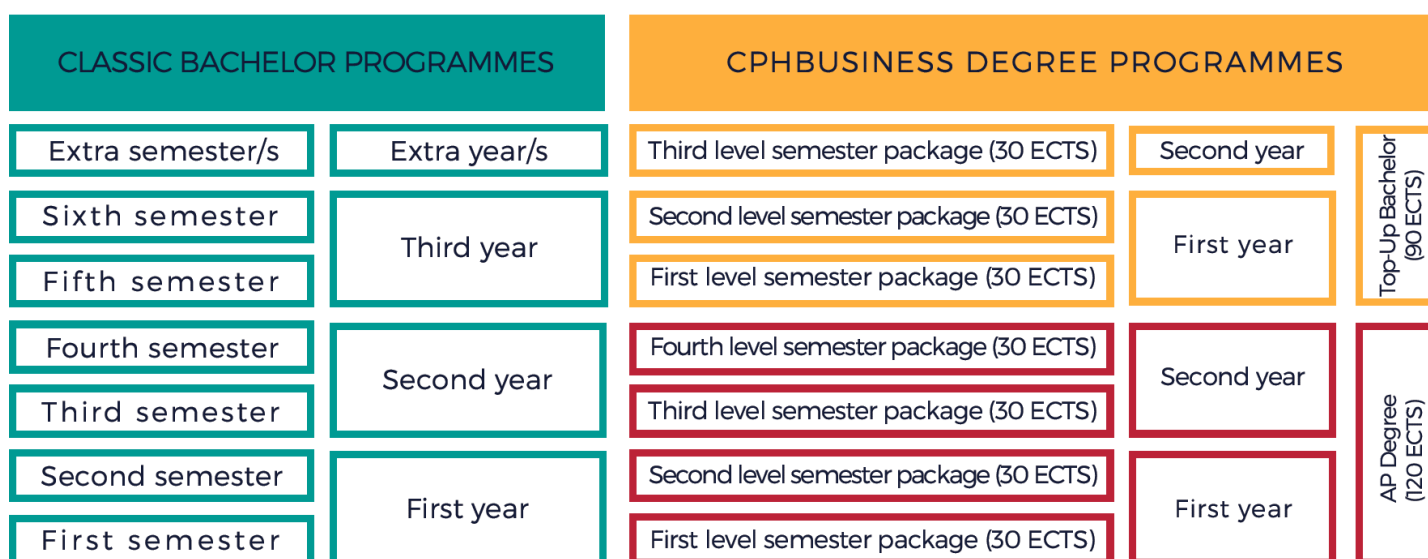

The students start by taking an **AP Degree programme (120 ECTS)**, which is equivalent to the first 2 years of a classic Bachelor programme.

After graduation, they choose a major. This is called **Top-Up Bachelor (90 ECTS)** and is equivalent to the final 1,5 years of a classic Bachelor programme. Thus, the first semester of a Top-Up Bachelor programme is equivalent to the fifth semester of a classic Bachelor programme.

**Incoming exchange students must choose a whole semester package (30 ECTS) for their study abroad period at Cphbusiness.**

Each semester package has a different academic level. A first level on a Top-Up Bachelor Programme is different from a first level on an AP Degree.

The structure of programmes at Cphbusiness is illustrated in the diagram below.

## TEACHING METHODS

The teaching and exams at Cphbusiness are often **interdisciplinary**. This means that it is not possible for students to select individual courses/classes of one educational programme and combine with other courses/classes of another programme in order to compose a tailor-made study programme.

Interdisciplinary teaching means “classic” subjects might be replaced (both in the curriculum and the time-table) with themes or focus areas. A theme may be “Understanding the market” where students will learn and apply theories and models from different disciplines, which related to the business market.

Students will have responsibility for their own learning. This means they will often have to prepare for teaching in advance by reading relevant literature. They will be placed in a group (usually with students of different nationalities and backgrounds) and together they will have to solve cases inspired by the real business world with the help of the theories and models studied.

Lecturers at Cphbusiness are facilitators and their role is often to guide the students and ensure correct understanding and application of theories and methods. In the learning situation, the lecturer will assist the group in correct understanding of the problem they need to solve and make sure they understand and use correct theories and models.

All semester packages described in this course catalogue will be offered in the spring semester 2019.

Before you start your semester, it is very important to read about the [Study Environment at Copenhagen Business Academy](#). Please click here to access the information.

# EXAM FORMS AND GRADING SYSTEM

## *Exam forms*

Most exams at Cphbusiness are interdisciplinary and they can take many forms:

1. **Written exams**, which can take several forms: short multiple choice exam or written exams with open questions, lasting up to six hours\*.
2. **Oral exams**, which can be based on written work/projects written by a student individually or by a group of students.  
The written work/projects can take different forms, e.g. it can be a specific case given to one student /group of students by a lecturer. Both case / project work and presentations can be made in multicultural groups or individually.\*

*\*Please note these are only examples, several forms of exams may apply, depending on study programme and semester*

“Interdisciplinary” means that students are expected to apply theories and models from several subject areas in order to answer questions, solve cases or write projects.

Sitting exams in groups of several students (“multicultural groups”) means all students in a certain group will be responsible for solving a case, writing (and presenting) a project or answering a question, thus determining (part of) the outcome of the exam (the grade).

The oral presentations (performed either individually or in groups) form the basis of a discussion between students and lecturer (and / or external assessor), which may take its point of departure in the written product (project or case solution) submitted by the students but will not be limited to this.

This means that, regardless of the form of the exam, **students are expected to master all theories and models studied during the semester** and be able to **answer questions, which are not necessarily directly related to the contents of the case/project, they might have submitted.**

## *Exam dates*

Exam catalogues and timetables (dates) will be displayed at the electronic student platform Moodle as soon as possible after semester start.

Students are advised NOT to buy their homebound tickets until they know the exact date of their final exam (or re-exam if necessary, please see below).

## *Failing exams*

In case of failing exams, students have to sit 2 re-exams. Usually the first re-exam is scheduled up to 2 weeks after the (normal) exam and right before the official end date of the semester.

## *More information*

More information is provided in the [“Examination Regulations at Cphbusiness” document available on our website here](#). Programme and semester specific information will be available for students after semester start in the “Exam catalogue” of their own study programme. It is the students’ own responsibility to collect and read relevant information about exams before these take place and in good time to allow proper preparation.

Exams at Cphbusiness are graded according [to the Danish 7-Point Grading Scale](#) or with “pass / no pass”. A “pass / no pass” will be awarded to students at the end of a semester, where no formal exams are organized, according to a specific set of criteria defined by lecturers.

# Courses in Marketing Management

## S-MEC-1-F-19 (Marketing Management 1 Sørerne)

Marketing Management – level 1 – Cphbusiness Sørerne.

The courses of this semester package take place at Cphbusiness Sørerne (Nansensgade 19, 1366 Copenhagen K) during the spring semester 2019.

### 1. An illustration of the level of the semester package

The first semester of the AP Degree in Marketing Management is equivalent to the first semester of a classic Bachelor degree.

### 2. Admission requirements

#### Language requirements

Students MUST have English qualifications corresponding to TOEFL 550 or IELTS 6.0. - [level B2 on CEFR](#) (Common European Framework for Languages) in order to be able to participate in class. Official language tests are not required, but we recommend our partner institutions ensure that nominated students' level of English meets the above-mentioned criteria.

Please note a student's ability to read, write, speak and understand English will highly influence the quality of the study abroad period and the student's ability to pass exams.

As an extra service to our international exchange students and partners, and to ensure a satisfactory academic outcome of the students' stay here, we may use Skype conversations with nominees before accepting them for a study programme.

### 3. Information about exams

The first semester of the AP Degree in Marketing Management finishes with a group-based case exam, where groups of students get 48 hours to solve a case. This is followed by an individual oral exam. The case and oral exam cover all subjects mentioned in the table below, which means all 30 ECTS points of the semester.

For [general information about exams and grading scale, please check the relevant chapter](#).

### 4. Description of subjects

At Cphbusiness, we use different methods of teaching. The common denominator is that the students get to use the theories and models in a practical context. We do that by working with cases, exercises and projects that incorporate the tools in a real life situation.

As students advance from theme to theme (see the table below), new materials build on the lessons learned from previous themes and advance the student's competencies and knowledge by working with a multidisciplinary approach.

In order to ensure progress, a number of Obligatory Learning Activities (OLA) planned and conducted during the semester. The 5 OLA's per semester allow the students to deliver assignments and/or projects and receive feedback from their teachers, which help them reflect on their progress.

As an extra service to our international exchange students and partners, and to ensure a satisfactory academic outcome of the students' stay here, we may use Skype conversations with nominees before accepting them for a study programme.

## 3. Information about exams

The exam on the second semester Marketing Management at Cphbusiness Lyngby will consist of solving a case. Students will have approximately 3 weeks to work on the case and prepare an oral presentation. There will be a 30 minutes oral exam, covering all subjects, at the end of June.

Failing the exam will mean students will not achieve any of the 30 ECTS.

For [general information about exams and grading scale, please check the relevant chapter](#).

## 4. Description of subjects

Teaching at Cphbusiness Lyngby is slightly different from the teaching at Cphbusiness Søerne.

It is highly interdisciplinary and the students will not study the subjects in the classic way (e.g. Marketing, Business Law or Economics as separate disciplines).

Instead, the semester is divided into "theme flows" with different learning objectives. Each learning objective is achieved by learning and working with tools and theories across the traditional disciplines and sometimes across different programmes. This means that students sometimes solve cases and write projects together with fellow-students from other programmes of study.

Although structured differently, the workload is similar to the description below.

In each flow, students will work in groups, solving cases or real problems for companies. Teaching is hands-on, quite intensive and students are responsible for preparing well for classes and cases, in order to both supply the case company with the best possible solution and to maximize their own learning.

To be noted: each flow will mix elements of the different subjects mentioned in the table above. The workload per subject will vary from module to module but at the end of the semester, students will have achieved the relevant ECTS.

### IMPORTANT INFORMATION

The work starts on the very first day of the semester and students will be placed in a group already then. Sometimes students will be asked to prepare for the first day (read some chapters from the relevant books).

It is therefore important students plan their arrival in Copenhagen the week before semester start, so they manage to pick up their books and get all relevant information in good time.

Subject	ECTS
Marketing	8
Economics	10
Business Law	3
Communication	5
Organization	4

#### Theme flows of the second semester:

The semester consists of 15 weeks. These are divided into five flows, each lasting 3 weeks. A short description of each flow can be seen below.

##### Flow 1:

Product-, price- and distribution strategies based on segmentation, targeting and positioning.

##### Flow 2:

Communications strategy; Understanding market communication theory and models and making a communications strategy; Creative strategy; Trade marketing and shopper marketing.

##### Flow 3:

Communications strategy and media planning; Marketing budget; Big Data and Content Marketing.

##### Flow 4:

B2B Sales strategy; sales organization and negotiation.

##### Flow 5:

The Marketing Plan and sales budgeting.

Each subject mentioned in the table below will be evaluated by an exam graded using the 7-point Grading Scale. Exam form depends on subject.

For [general information about exams and grading scale, please check the relevant chapter](#).

## 4. Description of subjects and teaching

The third semester Marketing Management is split in 3 periods of 6 weeks each. During the first period, students will cover the mandatory courses described in the table below. During the second and third period students will cover elective subjects.

Students will receive an Elective Subjects Catalogue from Cphbusiness after signing up for the semester together with more information about the registration process for the relevant electives.

Each period ends with an exam.

Subject	ECTS
<b>International Marketing (mandatory)</b>	5
This course digs into the different strategies a company can employ for internationalisation (from an overview of the benefits and possible pitfalls of internationalisation to working in depth with market assessment and selection to choice of entry strategies.)	
<b>International Economics (mandatory)</b>	5
This course supports the marketing subject in providing tools for describing and assessing economic factors relevant to the company's internationalization efforts, and goes further in determining the financial effects of investing in new markets.	
The criteria for selecting international markets are investigated using trade theories, exchange rate formation, causes of inflation and employment as well as looking into the sources of financing internationalization.	
<b>Elective subject</b> (You will have to choose 4 from a list of offers. The final list will be sent to students separately. The list below can be used for inspiration. Please note changes may occur.)	(4x) 5

Examples of possible elective subjects.

Do NOT use the below for your learning agreement. Contact us at [incoming@cphbusiness.dk](mailto:incoming@cphbusiness.dk) for an updated list over elective subjects for your semester.

- Statistics
- Managerial Economics
- Business law
- Entrepreneurship
