1. FRAMEWORK

This curriculum, covering the study programme Academy Profession Degree in Service, Hospitality and Tourism Management, hereinafter referred to as the study programme or the programme, is composed in compliance with the ministerial order no. 1521 of 16 December 2013 on academy profession programmes and bachelor programmes by the Danish institutions of higher education approved to offer the particular programme.

Joint parts and institution specific parts of the curriculum
Parts of the curriculum have been stipulated conjointly with the institutions in the respective national education network for business academies, whilst others have been determined by Cphbusiness alone. The joint parts are incorporated in this document and constitute the following subsections: 3.2, 3.4, 5.2, 5.4 and 6.1. The remaining parts are institution specific.

The joint parts have been co-created by the institutions mentioned below, which have committed themselves to ensuring national competence and uniform practices regarding exemptions.

The joint parts of the curriculum have been determined by:

- **Business Academy Aarhus**
  - [www.baaadk](http://www.baaadk)

- **Copenhagen Business Academy**
  - [www.cphbusiness.dk/english](http://www.cphbusiness.dk/english)

- **Danish Academy of Business and Technology**
  - [www.eadania.dk/en.aspx](http://www.eadania.dk/en.aspx)

- **Lillebaelt Academy of Professional Higher Education**

- **University College of Northern Denmark**
  - [www.ucnorth.dk](http://www.ucnorth.dk)

- **Zealand Institute of Business and Technology**
  - [www.zibat.dk](http://www.zibat.dk)

- **Business Academy of Higher Education MidWest**
  - [www.eamv.dk](http://www.eamv.dk)

The joint parts of the curriculum have been agreed upon by the national education network for business academies during the summer of 2014.

The curriculum as a whole has been approved by Cphbusiness in compliance with the institution’s internal approvals procedure on 25 August 2014.
1.1. Purpose and Objectives of the Study Programme

The purpose of the Academy Profession Degree Programme in Service, Hospitality and Tourism Management is to qualify the graduate to independently participate in the development, planning, implementation and delivery of service in companies and organisations within the fields of service, leisure tourism, business tourism as well as hotel and restaurant in national and international contexts.

Learning objectives and outcomes

The learning outcome includes the knowledge, skills and competencies an Academy Profession Graduate in Service, Hospitality and Tourism Management will achieve from the programme, cf. the ministerial order no. 700 of 3 July 2009 on the Academy Profession programme in Service, Hospitality and Tourism Management, appendix 1.

Following is an English translation of the Danish ministerial order no. 700 of 3 July 2009 on the Academy Profession Degree Programme in Service, Hospitality and Tourism Management, appendix 1, published in Lovtidende, which is the Danish national gazette. In the event of a discrepancy between the translated version and the Danish version, the latter is thus valid.

Knowledge

The graduate will possess knowledge of:

- business terminology and concepts as well as the industry’s application of theory and methodology in practice on both a national and international level
- the company’s possibilities for cooperation with the customer regarding the development of services
- relevant industries within the areas of business and leisure tourism, hotel and travelling and other service industries, their structure, development and organisation as well as the interaction between these
- fundamental strategic concepts and tool, which influence the service organisation’s choice of strategy
- the potential for internationalisation through working relations as well as the effect of the internationalisation process on the service company

Skills

The graduate will be able to:

- assess the conditions relating to costs for the service company with a view to financial calculations and budgeting
- assess the connections between the service concept, supply system, and competitive system of the service company as well as the skills to assess relevant development potential for the company
- apply knowledge about cultures in negotiation situations as well as set up and communicate practice-oriented solutions to partners and customers in both Danish and English
- apply portfolio models to describe the products of the service company
• assess practical management situation with the aim of choosing appropriate solutions

Competencies
The graduate will be able to:
• handle different situations – both national and international ones - relating to sales and development within the service profession
• acquire skills and knowledge in relation to the service profession when a specific issue requires it
• handle structural and cultural issues within his or own area based on an overall evaluation of the company in question
• take part in professional and cross-functional cooperation including collaborations on managerial functions and work tasks relating to personnel

1.2. Title, Duration and Certificate

Title
Upon completion of the programme, graduates are entitled to use the title AP Graduate in Service, Hospitality and Tourism Management (in Danish: serviceøkonom AK).

In agreement with the Danish Qualification Framework for Lifelong Learning, the programme is graded at level 5.

Duration and maximum length of study
With 60 ECTS credits (European Credit Transfer System) corresponding to one full-time year of study, cf. section 9 in the ministerial order no. 1521 of 16 December 2013 on academy profession programmes and bachelor programmes (BEK nr. 1521 af 16/12/2013: Bekendtgørelse om erhvervsakademiuddannelser og professborgrockeruddannelser), the programme amounts to 120 credits in total. According to section 5, subsection 2, in the Order on Academy Profession Programmes and Bachelor Programmes, the study programme shall be completed within the number of years corresponding to twice the nominal length of study, meaning four years. Under exceptional circumstances, Cphbusiness is entitled to grant exemptions from this rule.

Certificate
Upon completion of the Academy Profession Degree Programme in Service, Hospitality and Tourism Management, a certificate is issued to the student by Cphbusiness.

1.3. Commencement and Transitional Arrangements

This curriculum is effective as of 1 August 2014, and the terms and conditions stated herein apply to students enrolled at and starting the programme in the autumn of
2014. Students who do not follow the nominal course of study or who do not graduate within the nominal time of study, will always be transferred to the newest curriculum at the time the student returns to the study programme. Students who need to re-sit for exams and other tests will follow the newest curriculum, however it is possible to apply for a dispensation allowing the student to take the exam or exams according to the old curriculum. The application must be in writing, and must be sent to Cphbusiness no later than 4 months before the examination in question is to take place.

Under special circumstances, including circumstances relevant to the individual student, Cphbusiness may grant exemptions from the rule stipulated in this subsection, cf. subsection 1.3., entailing that an otherwise repealed curriculum still applies.

As regards the release of a new curriculum, or in the event of substantial alterations to the present, transitional arrangements will be laid down in the new curriculum.

1.4. Legal Framework

The legal framework that applies to this study programme is constituted by the latest versions of the following acts and ministerial orders:

Following are English translations of Danish national acts and orders published in Lovtidende, which is the Danish national gazette. In the event of a discrepancy between the translated version and the Danish version, the latter is valid.

- Act no. 214 of 27 February 2013 on academies of professional higher education (the Academy Profession Act)
- Act no. 467 of 8 May 2013 on academy profession programmes and professional bachelor programmes (LEP-loven)
- Ministerial order no. 1521 of 16 December 2013 on academy profession programmes and bachelor programmes (the Order on Academy Profession Programmes and Bachelor Programmes)
- Ministerial order no. 1519 of 16 December 2013 on examinations (the Examination Order)
- Ministerial order no. 223 of 11 March 2014 on admission and enrolment on academy profession programmes and bachelor programmes (the Admission and Enrolment Order)
- Ministerial order no. 262 of 20 March 2007 on the grading scale and other forms of assessment (the Grading Scale Order)
- Ministerial order no. 700 3 July 2009 on the academy profession programme in Service, Hospitality and Tourism Management

The respective acts and orders can be obtained through Retsinformation at www.retsinfo.dk (in Danish).
2. ADMISSION TO THE PROGRAMME

2.1. Entry Requirements

Admission to the programme requires a qualifying examination as well as fulfilment of the programme specific entry requirements. The entry requirements are stipulated in the order on admission and enrolment on academy profession programmes and bachelor programmes in force, and should doubts arise from the formulations used in this section, the formulations in the order apply. For the programme specific entry requirements, please visit Cphbusiness’ website.

2.2. Eligibility for Admission

In order to become eligible for admission to the programme, applicants must meet the entry requirements stated in subsection 2.1. If these are fulfilled, the applicant is qualified for, however not guaranteed, admission to the programme. Provided that the number of eligible applicants, cf. subsection 2.1., exceeds the number of spaces available, Cphbusiness may specify additional selection criteria on the grounds of which applicants in quota 2 are accepted as long as spaces are available.

The additional selection criteria will be published at Cphbusiness’ website, taking due account of the time limits provided by the Ministry of Higher Education and Science.

3. PROGRAMME CONTENT

3.1. Programme Structure

As a prerequisite for completing the study programme, students must attend and pass educational elements equivalent to a total workload of 120 ECTS credits. A full-time semester encompasses educational elements, corresponding to 30 ECTS credits.

The programme comprises compulsory educational elements equivalent to 75 ECTS credits, electives equivalent to 15 credits, an internship equivalent to 15 credits and a final examination project equivalent to 15 ECTS credits.

</table>
| **Total ECTS**                        | (75 ECTS)| **60 ECTS**| **60 ECTS**}
The sum of all educational elements and other study activities may not exceed the prescribed 120 ECTS credits. All educational elements, including the final examination project, are assessed and evaluated according to the subsection on examinations in this curriculum, cf. chapter 5, and where the outcome of the assessment is either ‘passed’ or at a minimum the grade 02, the educational element concerned is perceived as passed. For more information on examinations, please read chapter 5 in this curriculum and the local documents relevant to the programme.

3.2. Key Subject Areas and Compulsory Educational Elements

The programme covers five overarching subject areas to which the educational elements are related, cf. subsection 3.1. The subject areas comprise educational elements, corresponding to 75 ECTS credits. The content of these educational elements as well as the distribution of ECTS between them have been determined collaboratively by the institutions of higher education approved to offer the particular programme, and these educational elements are mandatory. The compulsory educational elements are all concluded with an examination and include the following:
## Diagrammatic outline of educational elements on semesters

</table>

The programme is structured by means of a number of themes that tie the separate educational elements together. Each semester focuses on a particular theme with the purpose of creating and ensuring progression and transparency throughout the course of the programme, and the compulsory educational elements cut across these themes. In the following, the compulsory educational elements will be elaborated on. The key subject areas and the compulsory educational elements share the same learning objectives, and consequently, they are only listed once in this curriculum.

### Methodology

**Key Subject Area:** Methodology

**Timing:** 1<sup>st</sup> year

**Work Load:** 5 ECTS

**Content:** The compulsory educational element consists of the following subjects:
- Theory of Science and Methodology (3 ECTS)
- Analysis (incl. Statistics) (2 ECTS)

**Learning Objectives:**
- Knowledge
The student must:
- be knowledgeable about how a combination of different methods can be employed when examining an issue
- have basic knowledge of scientific approaches

**Skills**
The student must:
- on the basis of different theories have the skills to interpret both qualitative as well as quantitative data
- have the skills to communicate the scientific methods in writing as well as orally
- have the skills to communicate issues and solutions

**Competencies**
The student must:
- both individually and in cooperation with fellow students and service companies be able to design investigations, just as the student must be able to collect and analyse information

**Examination and Evaluation:**
- 2nd semester: First Year Interdisciplinary Exam

### Service Industry

**Key Subject Area:** The Service Company

**Timing:** 1st and 2nd year

**Work load:** 15 ECTS

**Content:** Service Industry is divided into the following subjects:
- Industry Knowledge (5 ECTS)
- Service Design (8 ECTS)
- Service Law (2 ECTS)

### Industry Knowledge

**Work load:** 5 ECTS

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about the development, tendencies and structure of the service industry from both a national and international perspective
- be knowledgeable about the specialisation courses of the programme, including understand the relation between them
- be knowledgeable about the development of the experience economy, its importance as a growth factor as well as the concepts and theories related hereto
- be able to relate the experience economy to the service industry in general and specifically to the specialisation courses of the programme
Skills
The student must be able to:
- assess and evaluate relevant aspects of the service industry and the experience economy in analyses and reports
- explain developments in the specialisation courses of the programme and identify the latest trends within the service industry and experience economy
- relate the service industry and the experience economy to the remaining courses of the programme

Competencies
The student must be able to:
- take part in relevant work processes related to the service industry and experience economy
- put theories of experience economy into practice
- act in the service industry in accordance with the codes of conduct that prevail in the respective specialisation areas of the programme

Service Design 1
Work load: 4 ECTS
Learning Objectives:
Knowledge
The student must:
- know about service management systems, service concepts and service delivery systems
- be knowledgeable about different principles for quality control

Skills
The student must be able to:
- participate in the designing and development of service concepts and service delivery systems

Competencies
The student must be able to:
- establish lasting relations with customers and put forward suggestions for improvement

Service Design 2
Work load: 4 ECTS
Learning Objectives:
Knowledge
The student must:
- possess knowledge about parameters essential to the establishment of
optimum customer relations, including loyalty and quality

Skills
The student must be able to:
- assist in creating value-adding customer relations

Competencies
The student must be able to:
- acquire new knowledge with the purpose of improving service management systems and concepts

Service Law
Work load: 2 ECTS
Learning Objectives:
Knowledge
The student must:
- be knowledgeable about the legal conditions that service companies must act in conformity with in relation to employees, customers and the market, including, and in particular, legislation governing marketing practices, contract law in general incl. agency, legislation governing the purchase of goods and services as well as employment and labour law
- be knowledgeable about collective agreements, the General Agreement and the Services Directive

Skills
The student must be able to:
- assess issues related to the hiring process – from advertisement of vacancy to the drawing up of an employment contract, especially in regards to the Consolidation Act on the Equal Treatment of Men and Women as Regards Access to Employment, the Act on the Use of Health Data on the Labour Market, the Consolidation Act on the Employer’s Obligation to Inform Employees of the Conditions Applicable to the Employment Relationship
- estimate when a contract is entered into, including agreements entered into by administrative officers
- assess which of the parties involved in a purchase situation who bears the risk of accidental loss or accidental deterioration of goods. The student must also be knowledgeable about the rights arising from breach of contract.

Competencies
The student must be able to:
• identify legal issues related to the service company’s contract formations, marketing activities, employment conditions as well as sales conditions, just as the student must be able to take part in professional cooperations where focus is on finding solutions to legal issues.

**Examination and Evaluation**

- 2\textsuperscript{nd} semester: First Year Interdisciplinary Exam (Industry Knowledge and Service Design 1-2)
- 4\textsuperscript{th} semester: Development Project (Service Law)

**Organisational Development**

**Key Subject Area:** Organisation

**Timing:** 1\textsuperscript{st} and 2\textsuperscript{nd} year

**Work load:** 15 ECTS

**Contents:** Organisational Development is divided into the following subjects:
- Leadership and Project Management (7 ECTS)
- Organisation & HR (8 ECTS)

**Leadership and Project Management 1**

**Work load:** 5 ECTS

**Learning Objectives:**

**Knowledge**

The student must:

- be knowledgeable about different organisational structures, and how they affect the efficiency and overall well-being within the service company
- be knowledgeable about theories and models for understanding, managing and developing service companies and organisations
- be knowledgeable about theories and models for understanding the structure and culture of service companies as well as the factors that influence motivation in service companies
- be knowledgeable about how management theories and models can be applied to service companies
- be knowledgeable about which management conditions apply when a work group is to be put together with the purpose of creating the best possible performance
- be familiar with the most common and advantageous tools for project management (including IT)

**Skills**

The student must be able to:

- assess the applicability of theories and models in actual management situations
- communicate management decisions to seniors, colleagues and other employees
- analyse, plan, evaluate and provide reasons for the practical execution of a
project, including a rough estimation of the financial costs related hereto

- choose an appropriate method for project planning – just as the student must be able to assess when and if an IT-based system can be used advantageously

**Competencies**
The student must be able to:

- participate in decision-making at a management level
- apply specific methods and tools for project management as well as outline goals and objectives for a project group
- take responsibility for as well as plan and manage a project from beginning to end

**Leadership and Project Management 2**

**Work load:** 2 ECTS

**Learning Objectives:**

**Knowledge**
The student must:

- be knowledgeable about relevant models for identifying the needs for specific competencies in the service industry
- be knowledgeable about relevant models for setting personal development targets

**Skill**
The student must be able to:

- apply relevant models and methods for identifying competencies
- apply relevant models and methods for setting personal development targets

**Competencies**
The student must be able to:

- identify competencies in the service industry as well as the student’s own competencies
- set personal development targets

**Organisation & HR 1**

**Work load:** 3 ECTS

**Learning Objectives:**

**Knowledge**
The student must:

- be knowledgeable about methods and theories for the recruitment, development and dismissal of employees
- be knowledgeable about work environmental conditions that influence the physical and psychological work environment, including employee
satisfaction

**Skills**
The student must be able to:
- assess basic conditions concerning the development and administration of employees with respect to organisational development
- communicate the HR policy of the service company to employees and business partners

**Competencies**
The student must be able to:
- manage HR tasks in accordance with the overall HR strategy of the service company
- take part in a cross-departmental collaboration on the creation of a service company’s HR strategy
- deal with basic work environmental conditions as well as seek proper expert advice when necessary

**Organisation & HR 2**

**Work load:** 5 ECTS

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about different theories and models for developing and changing the service organisation

**Skills**
The student must be able to:
- apply and assess different models for organisational development

**Competencies**
The student must be able to:
- participate in processes of change and development with a specific focus on relevant fields of work and responsibility

**Examination and Evaluation:**
- 2nd semester: First Year Interdisciplinary Exam (Leadership and Project Management 1-2)
- 4th semester: Development Project (Organisation & HR 1-2)

**Business Development**

**Key Subject Area:** Planning

**Timing:** 1st and 2nd year

**Work load:** 15 ECTS

**Content:** Business Development is divided into the following subjects:
- Creativity & Innovation (5 ECTS)
Creativity & Innovation 1

Work load: 2 ECTS

Learning Objectives:

Knowledge
The student must:

- be knowledgeable about differences and relations between creativity, innovation, entrepreneurship and intrapreneurship with a distinct focus on, how creativity is encouraged in the company
- be knowledgeable about creative tools
- be knowledgeable about how creative and innovative processes can be planned, initiated and evaluated

Skills
The student must be able to:

- manage different tools for idea generation and creativity in a practice-oriented context
- assess the appropriateness of each tool for idea generation in practice

Competencies
The student must be able to:

- include aspects of creativity in projects and cases
- take part in and carry out creative processes in service companies

Creativity & Innovation 2

Work load: 3 ECTS

Learning Objectives:

Knowledge
The student must:

- be knowledgeable about the progress from initial idea to the introduction of a product or service to the market
- be knowledgeable about terms and typologisations central to innovation, including sources of innovation
- be knowledgeable about relevant tools for controlling the innovation process

Skills
The student must be able to:

- assess how service companies can promote innovation
- describe and categorise innovation

Competencies
The student must be able to:
• participate in and facilitate innovative processes in service companies
• include aspects of innovation in projects and cases
• work cross-functionally and holistically with development processes

**Strategy & Business Plan 1**

*Work load: 3 ECTS*

**Learning Objectives:**

*Knowledge*
The student must:
• be knowledgeable about the basic strategic concepts and tools that influence service company’s choice of strategy
• be knowledgeable about the service company’s competitive position

*Skills*
The student must be able to:
• analyse the strategic position of the service company
• conduct both internal and external analyses

*Competencies*
The student must be able to:
• take part in the development of the service company’s strategic plan

**Strategy & Business Plan 2**

*Work load: 2 ECTS*

**Learning Objectives:**

*Knowledge*
The student must:
• be familiar with relevant models for developing business plans

*Skills*
The student must be able to:
• apply relevant models and methods for developing business plans

*Competencies*
The student must be able to:
• develop a business plan

**Service Marketing & Trends 1**

*Work load: 1 ECTS*

**Learning Objectives:**

*Knowledge*
The student must:
• be knowledgeable about basic service marketing concepts
• be knowledgeable about the customer behaviour and market conditions of service companies
Skills
The student must be able to:

- identify relevant customer behaviour and market conditions in relation to a specific company

Competencies
The student must be able to:

- take part in the execution of a customer behaviour analysis

Service Marketing & Trends 2
Work load: 3 ECTS
Learning Objectives:
Knowledge
The student must:

- be knowledgeable about the service company’s parameter mix og customer relations

Skills
The student must be able to:

- use parameter mix in relation to a company’s customer relations

Competencies
The student must be able to:

- assess the correlation between the company’s parameter mix and customer relations

Service Marketing & Trends 3
Work load: 1 ECTS
Learning Objectives:
Knowledge
The student must:

- be knowledgeable about the latest developments in marketing
- be knowledgeable about the conditions that regulate the internationalisation of service companies

Skills
The student must be able to:

- identify conditions relevant to the service company’s choice of internationalisation strategy

Competencies
The student must be able to:
• take part in the development of a service company’s marketing strategy, including the development of a marketing plan

**Examination and Evaluation**
- 2nd semester: First Year Interdisciplinary Exam (Creativity & Innovation 1, Strategy & Business Plan 1 and Service Marketing & Trends 1-3)
- 4th semester: Development Project (Creativity & Innovation 2, Strategy & Business Plan 2)

**Service Economics**

**Key Subject Area:** Planning

**Timing:** 1st and 2nd year

**Work load:** 15 ECTS

**Contents:** Service Economics consists of the following subjects:
- Economics (12 ECTS)
- Global Service Economics (3 ECTS)

**Economics 1**

**Work load:** 3 ECTS

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about the company’s financial management
- be knowledgeable about principles relevant for financial reporting
- be knowledgeable about the hostilities that alternative reporting create, and how they may support the strategic work of the management

**Skills**
The student must:
- possess the IT-skills necessary to process financial problems
- be able to set up financial results in preparation for analyses

**Economics 2**

**Work load:** 6 ECTS

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about pricing methods
- be knowledgeable about the execution of revenue management
- be knowledgeable about financial analysis, including the methods used in the service industries
- be knowledgeable about different types of budgeting, budget structuring and budget methods
Skills
The student must be able to:
- propose solutions in terms of various types of calculations and simulations\(^1\)
- calculate key figures relevant to the service company
- draw up budgets relevant to a company and a project

Competencies
The student must be able to:
- critically evaluate different tools for optimisation in relation to a company’s financial state
- execute an annotated financial analysis
- assess a company’s financial development and include budgeting in the financial management

Economics 3
Work load: 3 ECTS
Learning Objectives:
Knowledge
The student must:
- be knowledgeable about financing alternatives and the concept of interest

Skills
The student must be able to:
- describe and calculate investment and financing alternatives
- use relevant forms of breakeven analyses

Competencies
The student must be able to:
- calculate the profitability of an investment and explain an alternate choice of financing
- choose and apply relevant financial methods in analyses and projects about concrete issues

Global Service Economics
Work load: 3 ECTS
Learning Objectives:
Knowledge
The student must:
- be knowledgeable about the global economy’s impact on the development of both national and regional societies

\(^1\) Types of calculations and simulations TBD
be knowledgeable about the mechanisms of the global economy, including the macroeconomic conditions
be knowledgeable about the effects of different economic/political options available

Skills
The student must be able to:
- describe and analyse the most significant macroeconomic factors’ effect on market conditions
- assess various competition and market structures

Competencies
The student must be able to:
- include socio-economic conditions in analyses and assessments

Examination and Evaluation:
- 2nd semester: First Year Interdisciplinary Exam (Global Service Economics)
- 2nd semester: Economics Exam (Economics 1-2)
- 4th semester: Development Project (Economics 3)

</table>

**Skills**
The student must be able to:
- negotiate and present orally in English
- perform business communication in writing

**Competencies**
The student must be able to:
• communicate professionally in English in a business-related context orally as well as in writing

Business Communication and Networking 2
Work load: 2 ECTS
Learning Objectives:
Knowledge
The student must:
• understand the importance of business networking in relation to the development of not only the employee but also the service company
• be knowledgeable about negotiation technique theory

Skills
The student must be able to:
• identify networks relevant to the development of employees and thereby to the development of the organisation
• carry out a negotiation

Competencies
The student must be able to:
• initiate or take part in relevant networking with a view to developing his or her own competencies
• negotiate effectively

Business Communication and Networking 3
Work load: 2 ECTS
Learning Objectives:
Knowledge
The student must acquire knowledge of:
• different presentation and meeting techniques

Skills
The student must be able to:
• apply different presentational techniques and independently adjust his or her way of communicating according to specific contexts

Competencies
The student must be able to:
• communicate practice-oriented and professional issues and solutions to partners and co-workers
• communicate messages internal as well as external to the company with a high degree of assertiveness
### Intercultural Competencies 1

**Work:** 1 ECTS  
**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about the concept of culture and cultural elements
- understand the impact of culture on communication

**Skills**
The student must be able to:
- use his or her knowledge of culture related to the global service company
- assess the impact of the student’s own cultural background when communicating with people with different cultural backgrounds

### Intercultural Competence 2

**Work load:** 2 ECTS  
**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about theories and tools for the analysis of cultures in relation to the global service company

**Skills**
The student must be able to:
- propose practice-based solutions to issues arising from the meeting of different cultures
- take part in business development where cultural elements are taken into consideration

**Competencies**
The student must be able to:
- identify cultural similarities and differences, so that the student is able to act appropriately and be a success in different cultural contexts internal as well as external to the service company
- integrate the impact of culture in the development of service concepts

**Examination and Evaluation:**
- 4th semester: Communication Exam (Business Communication and Networking 1-3 and Intercultural Competencies 1-2)
### 3.3. Elective Educational Elements: Electives and Specialisation

In addition to the compulsory educational elements, the programme comprises elective elements corresponding to 15 ECTS credits. These are offered as a means for students to specialise themselves in subjects related to service, hospitality and tourism management. The available electives are outlined below.

<table>
<thead>
<tr>
<th>Hotel and Restaurant Management</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Timing:</strong> 1(^{st}) and 2(^{nd}) year</td>
</tr>
<tr>
<td><strong>Work load:</strong> 15 ECTS</td>
</tr>
</tbody>
</table>

**Aim:** The aim of the elective Hotel and Restaurant Management is to qualify the student to independently plan and carry out significant management related and specialised work tasks in hotel, conference and restaurant companies. The student should obtain a deeper understanding of the industry and thereby the ability to put the guest at the forefront as well as evaluate the business methods and revenue generation capacity. Focus is put on a holistic understanding of the central working processes that take place in and between the hotel and restaurants different departments. Furthermore, the student should acquire knowledge of national and international hotel and restaurant concepts.

#### Hotel and Restaurant Management 1

**Work load:** 2 ECTS

**Learning Objectives:**

**Knowledge**

The students must:

- be knowledgeable about traditions and trends from the hotel, conference and restaurant industries, just as the student must understand the interrelation between not only these industries but also other industries and professions
- be knowledgeable about hotel, conference and restaurant related classification systems, certifications and ownership forms
- be knowledgeable about and understand the work tasks in different departments, so that positive relations between departments are generated
- be knowledgeable about the income of the hotel, conference and restaurant based on Yield Management, up selling and key figures

**Skills**

The student must be able to:

- price the hotel’s services
- describe and analyse hotel, conference and restaurant concepts
Hotel and Restaurant Management 2

Work load: 3 ECTS
Learning Objectives:
Knowledge
The students must:
- be knowledgeable about the legal framework within which hotels, conferences and restaurants operate

Skills
The student must be able to:
- assess and contribute to the optimisation of the hotel’s, restaurant’s or conference’s income based on Yield Management, up selling and key figures

Competencies
The student must be able to:
- price the hotel’s services
- analyse and develop the processes and service deliveries (packages) of the hotel, the restaurant and the conference

Hotel and Restaurant Management 3

Work load: 10 ECTS
Aim: The goal of the third part of Hotel and Restaurant Management is to qualify students to independently analyse and work with front and back of house operations, including the determination of service processes. The student must be able to organise food and beverage operations as well as assess and propose ways for optimisation of the restaurant’s operations.

Learning Objectives:
Knowledge
The student must:
- be knowledgeable about front of house operations, including the various phases guests go through during their stay at the hotel
- be knowledgeable about back of house operations, including risk management, housekeeping, property management and outsourcing
- be knowledgeable about the handling of foods and self-policing

Skills
The students must be able to:
- assess key tasks in food and beverage departments by determining the overall "service production process" - from the identification of a customer’s needs, to procurement of primary produce, processing, servicing and final payment
• provide suggestions for environmental improvements
• assess tasks central to the hotel operations by mapping out staffing schedules, communication routines and the handling of guest relations

Competencies
The student must be able to:
• take part in the food and beverage menu planning from a revenue perspective
• assess the industry's distribution and sales channels and help develop these in relation to the target group
• manage planning related to event management
• use performance management in practice

Examination and Evaluation:
• 3rd semester: Specialisation Exam

Tourism Management
Timing: 1st and 2nd year
Work load: 15 ECTS
Aim: The aim of the elective Tourism Management is that the student gains the knowledge, skills and competencies that are necessary to carry out coordinating and consulting functions in tourism companies and organisations. The student must do this based on the destination as the core element and include an understanding of the company’s/organisations’ role in the tourism system. The elective focuses on providing the students with a holistic understanding of the cooperations and transactions that take place between tourism actors in the industry.

Tourism Management 1
Work load: 2 ECTS
Learning Objectives:
Knowledge
The student must:
• be knowledgeable about actors and elements central to the tourism industry
• be knowledgeable about the tourism industry, incoming and outgoing tourism, tourism systems as well as the destination concept, including public and private actors
• be knowledgeable about basic tourism concepts
• be knowledgeable about relevant tourism segments and types of tourists
• be knowledgeable about the interdependence of tourism actors

Skills
The student must be able to:
• use knowledge about incoming and outgoing tourism
• assess to which degree a destination fulfil the tourist’s needs
• assess to which degree a destination fulfil the needs of different markets
and segments
• assess the characteristics of the tourism system

**Tourism Management 2**

**Work load:** 3 ECTS

**Learning Objectives:**

**Knowledge**
The student must:
• be knowledgeable about the destination’s elements and actors
• be knowledgeable about tourism products, including sights and tourist attractions:
  • DMO: Marketing and management
  • Supply and demand relations pertaining to tourism
• be knowledgeable about tourism markets and segments

**Skills**
The student must be able to:
• assess to which degree a destination fulfil the tourist’s needs
• assess to which degree a destinations fulfil the needs of different markets and segments, including leisure and business

**Competencies**
The student must be able to:
• take part in the development, designing and organisation of new tourism services at the destination
• take part in the making of a destination analysis

**Tourism Management 3**

**Work load:** 10 ECTS

**Aim:** The aim of the third part of the elective Tourism Management is that the student gains an overview of tourism and its development/trends, political decisions in private and public contexts as well as the socio-economic impact of tourism on a tactical and strategic level. The students must be able to use this specific knowledge in the following contexts:
• Product development
• Destination development
• Branding and marketing of tourism organisations and destinations

Focus is on providing the student with a better understanding of the tourism system and thereby increasing the student’s capacity to analyse and, in the light of these, develop marketing plans and tourism products.
Learning Objectives:

Knowledge
The student must:
• be knowledgeable about the development of tourism over time and be able to explain it
• be knowledgeable about the relations between different forms of tourism
• be knowledgeable about how the tourism system is affected by external factors such as the socio-economic and technological development
• be knowledgeable about trends in the various forms of tourism, and how these affect the different elements of the tourism system
• be knowledgeable about the branding of destinations and nation branding
• be knowledgeable about national and international tourism policies and their impact on the development of tourism

Skills
The student must be able to:
• identify trends in the various forms of tourism and assess whether tourism products are consistent with these trends
• use knowledge of socio-economic developments in order to understand the strategic tourism challenges in private as well as public contexts, including public / private partnerships (PPP)
• participate in the planning of the promotion of destinations, companies and national tourism organisations
• analyse destinations, segments, trends and political changes as well as their impact on different tourism actors

Competencies
The student must be able to:
• participate in the preparation of a marketing plan regarding a destination or tourism organisation
• use the knowledge acquired through the elective of the tourism system to develop and sell tourism products in line with current trends

Examination and Evaluation:
• 3<sup>rd</sup> semester: Specialisation Exam

Service Management
Timing: 1<sup>st</sup> and 2<sup>nd</sup> year
Work load: 15 ECTS
Aim: The aim of the elective Service Management is that the student acquires the knowledge, skills and competencies necessary to carry out coordinating and consulting functions related to the development and implementation of events. The student must be able to define clear strategic objectives for an event and realise the defined objectives through an event management process. The student must be
able to participate in the development, planning, implementation and evaluation of events – from smaller one-day events to larger events. The student must understand the consultant/adviser concept in relation to both internal and external services offered to a client/customer.

### Service Management 1

**Work load:** 2 ECTS  
**Learning Objectives:**

#### Knowledge

The student must:
- be knowledgeable about the application of product and concept development in the experience industry as well as in connection with the creation of events

#### Skills

The student must be able to:
- assess, analyse and communicate product and concept developments in strategic event management based on the connection between these developments and the company’s strategic planning

#### Competencies

The student must be able to:
- manage the development of different products and concepts as well as participate in interdisciplinary cooperations concerning the implementation of same

### Service Management 2

**Work load:** 3 ECTS  
**Learning Objectives:**

#### Knowledge

The student must:
- be knowledgeable about the consultant/adviser concept in relation to both the internal and external services offered to a client/customer  
- be knowledgeable about the basic theoretical concepts and tools that characterise the work of the consultant, including knowledge of how different consulting roles influence the service company’s development and daily operations  
- be knowledgeable about strategic event management and the roles which events and event management play in both a regional and global contexts

#### Skills

The student must be able to:
- assess different consultant / adviser roles and use these in an internal as well as external client and consultant cooperation  
- acquire new skills and knowledge of event management through structured preparations for the execution of events
• assess, analyse and communicate why it is essential to have good suppliers and an optimum supply chain for event management

**Competencies**
The student must be able to:
- distinguish between the different tools a consultant has at his or her disposal in relation to the consultancy work
- develop the supply chain in connection with the execution of events

**Service – Concept and Event Management**

**Work load:** 10 ECTS

**Purpose:** The student must be able to develop a service design in an experience economic context, including the planning, development and implementation of new, sustainable experience-based concepts and events. The students must be able to participate in the development of processes and concepts as part of the service organisation's strategic planning.

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about the experience economy from a business perspective
- be knowledgeable about models for marketing and communication through experiences
- be knowledgeable about theories of LEAN, storytelling and CSR

**Skills**
The student must be able to:
- provide issues based on experience economic developments at the macro level, which can be turned into useful knowledge at a company level
- assess the impact of the experience economy at a local, regional and national level
- apply CSR principles in concept and event management
- assess the suitability of different communication channels for the promotion of events
- assess practice-based risks and legal aspects related to the execution of events

**Competencies**
The student must be able to:
- identify areas of action with the object of creating increased value from an experience economic perspective
- draw up specific proposals for the development and implementation of
experience concepts and events that may be used in relation to the strategic development of a company or a collaboration between several companies from the same industry or across industries

- acquire new skills and knowledge of event management through structured preparations for the execution of events
- develop the supply chain for the execution of events
- participate in event planning from a revenue perspective

**Examination and Evaluation:**
- 3rd semester: Specialisation Exam

### 3.4. Internship

The Academy Profession Degree Programme in Service, Hospitality and Tourism Management includes both theory and practical experience with the purpose of supporting the student’s continuous learning process and contributing to the fulfilment of the learning objectives specified for the study programme. During the internship, students are faced with professionally relevant issues, just as they become familiarised with relevant job functions. Students must actively and independently seek a placement with one or more private or public companies, and Cphbusiness ensures that the internship settings are satisfactory.

The internship is unpaid.

<table>
<thead>
<tr>
<th><strong>Internship</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Timing:</strong> 3rd semester</td>
</tr>
<tr>
<td><strong>Work load:</strong> 15 ECTS</td>
</tr>
</tbody>
</table>

**Purpose:** The purpose of the internship is that the student acquires a practice-based insight into the service industry and substantiates his or her professional qualifications. A student may acquire this insight through a company’s personnel, sales, marketing, economics or customer service department. Furthermore, the purpose of the internship is that the student becomes involved in real, hands-on job assignments.

**Learning Objectives:**

**Knowledge**
The student must:
- be knowledgeable about the internship company’s basis for existence and organisation

**Skills**
The student must be able to:
- assess practice-oriented issues and collect information for solving work tasks and performing functions in the company

**Competencies**
The student must be able to:
- take part in the operations of the internship company as well as the development-oriented work processes and functions
- work out a project in a structured manner with a practice-based issue as the underlying basis
- consider to which degree the professional and personal objectives of the internship have been fulfilled

**Examination and Assessment:**
- Following the internship: Internship Exam

### 3.4.1. Rules Regarding the Internship

**Requirements for the parties involved**

The hosting company, offering the internship, provides a contact person who must be at the student’s disposal for the duration of the internship. The contact person and the student must draw up an internship agreement in collaboration, and this agreement, which must be in writing, should outline the types of tasks and assignments the student will face during his/her internship. The internship agreement must take into account not only the learning objectives of the internship stipulated in this curriculum but also the student’s prior knowledge, training and qualifications.

The internship agreement should afterwards be submitted for approval at Cphbusiness.

Close contact will be established between the student and one of the Cphbusiness appointed internship supervisors, who will act as the student’s sparring partner for the entire duration of the internship and in addition hereto the examiner on the report.

A manual, describing the internship process in greater detail, is available through Cphbusiness.

Upon completion of the internship period, both the student and the hosting company will have to participate in an evaluation of the internship period. The student must complete the evaluation in order to attend the exam.
### Roles and responsibilities of the parties involved

3.5. Teaching and Working Methods

At Cphbusiness, various teaching methods are practised. Among these are lectures, cases, assignments, practical and theoretical exercises, laboratory work, oral presentations, homework/study assignments, excursions/field trips, etc. The teaching may be thematised, just as it may be divided into different courses.

The purpose of the varied teaching methods is that students, by means of the selected teaching modes, acquire knowledge, skills and competencies within the programme’s key subject areas, and that students apply these in accordance with the programme’s learning objectives.

3.6. Language of Instruction

Service, Hospitality and Tourism is an English taught programme, and all teaching is in English. In some cases, students may be able to choose electives in Danish, and students are free to enter into an internship agreement with a company in which the spoken language is Danish.²

4. INTERNATIONALISATION

4.1. Study Abroad

All full-time studies at Cphbusiness shall be organised in a manner that allows students the opportunity to take at least one of the study programme components abroad within the nominal length of study.

The possibility of studying abroad pertaining to the Academy Profession Degree Programme in Service, Hospitality and Tourism Management includes:

- The internship

Educational elements taken abroad can be approved for credit transfer provided that they are compatible with and meet the requirements regarding contents and level stipulated in this curriculum.

Students, wishing to study abroad, have to apply for credit transfer before the period is initiated in due time to receive a pre-approval for credit transfer. The decision as to whether the educational elements can be approved for credit transfer rests on Cphbusiness’ evaluation of the contents and standards offered by the educational institution or host company. When the period abroad is completed, students who have received a pre-approval for credit transfer have to document that they have successfully completed the pre-approved educational elements. As part of the pre-approval process, students shall concur that Cphbusiness has the right to obtain

² The Service, Hospitality and Tourism programme is offered as a Danish taught programme as well. For a description of the study programme with Danish as the language of instruction, please consult the Danish version of this curriculum (Studieordning for serviceøkonom).
information relevant to the final credit transfer after the student has returned from the period of study abroad. A pre-approved educational element will be regarded as successfully completed, if the student has passed the element in accordance with the rules and regulations in effect at the hosting educational institution.

5. EXAMINATION AND ASSESSMENT

5.1. General Rules Regarding the Exam

For exams at Cphbusiness, the following rules apply:

- The ministerial order no. 1519 of 16 December 2013 on examinations (the Examination Order), as well as
- The ministerial order no. 262 of 20 March 2007 on the grading scale and other forms of assessment (the Grading Scale Order) (Karakterbekendtgørelsen)

In addition, the Cphbusiness rules and regulations regarding examination in effect at the time in question apply to examinations.

5.2. Description of Assessment of Educational Elements

In the following, an overview of the examinations at the Service, Hospitality and Tourism Management programme is provided. Requirements and details on the specific examinations, including examination period, form and materialities, the use of aid during examination, etc., are described in local documents relevant to the programme.

Each examination, which may test several educational elements concurrently, will appear with one grade on the final diploma.

5.3. Other Requirements for Completion of Activities

Besides the examinations mentioned above, students are required to attend and have a number of obligatory study activities approved in order to attend the exam and continue their studies, cf. the Examination Order section 9 and section 5, subsection 2.

5.3.1. Mandatory Activities: Requirements for Participation and Submission of Assignments

In order to attend some of the exams, students must have a number of mandatory learning activities approved. In case the mandatory learning activity is not approved, the student cannot attend the exam, which counts as an attempt at the exam. The student is automatically signed up for the re-examination; however, the student must still pass the mandatory learning activity, as it is the prerequisite for attending the exam.

The mandatory learning activities vary, depending on the educational elements. Examples of mandatory learning activities include requirements for participation, presentations, assignments, etc. The mandatory assignments for the Service, Hospitality and Tourism Management programme can be found in the local documents relevant to the study programme.

5.3.2. The Study Start Test

Cphbusiness conducts study starts tests on all full-time study programmes. A student must fulfil the study start test requirement in order to remain enrolled at the study programme, cf. the Examination Order section 9.

<table>
<thead>
<tr>
<th>Study Start Test</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Timing:</strong> The study start test must be conducted no later than two months after commencement of the study programme</td>

</tr>
<tr>
<td><strong>Assessment:</strong> Approved/Not approved.</td>
</tr>
<tr>
<td><strong>Admission criteria:</strong> None</td>
</tr>
<tr>
<td><strong>Consequences of not passing:</strong> If the student does not fulfil the study start test requirements in the first attempt, it is possible to participate in a re-examination”, which will be held no later than three months after commencement of the study programme. If the re-exam is not approved, the student cannot continue the study programme and his/her enrolment will be terminated, cf. the Examination Order section 9.</td>
</tr>
</tbody>
</table>
**Special conditions and specifications for the study start test:** The study start test is not covered by the regulations on complaints regarding examinations, cf. the Examination Order section 9, subsection 4. Under special circumstances, such as serious illness or other unusual circumstances, Cphbusiness is entitled to grant exemptions from rules stipulated in this section. Students will have to submit a request for exemption, which must specify and document the reasons for exemption.

### 5.3.3. The First-Year Exam

Students must meet a study activity requirement called the first-year exam. In order to meet this requirement, students must pass a number of exams before the end of their first year of study. Please note that the first-year exam, as it is described in this subsection, is not an exam per se but a requirement that *the first year interdisciplinary exam* is passed before the end of the first year of study.

**Consequences of not passing the first-year exam**

In the event that a student does not pass the respective exam within the stipulated time frame, the enrolment of the student will be terminated, cf. the Examination Order section 8, subsection 2, and the Admission and Enrolment Order section 36, subsection 1, number 4.

### 5.4. The Final Examination Project

The final examination project, concluding the Service, Hospitality and Tourism programme, must document the students’ abilities to understand and analyse a practice-based problem related to their respective fields of study by means of relevant theory and methodology. Thus, central subjects from the programme should be covered by the project, and a problem statement, which must be key to not only the programme but also the respective type of industry/profession, has to be formulated by the student, and if desired in cooperation with a private or public company. Cphbusiness will subsequently approve the problem statement.

The final examination project is conducted as an external examination, which, together with the internship report and other programme examinations, should document that the programme’s learning objectives and requirements are met. The examination comprises a written part and an oral part that result in a single joint grade. The examination can only take place after the student has passed all other educational elements. For more information about the final examination project, see section 5.2. in this curriculum and in local documents relevant to the programme.
## Final Examination Project

<table>
<thead>
<tr>
<th><strong>Timing:</strong></th>
<th>4&lt;sup&gt;th&lt;/sup&gt; semester</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Work load:</strong></td>
<td>15 ECTS</td>
</tr>
</tbody>
</table>

**Aim:** The purpose of the final examination project is that the student independently completes an interdisciplinary and practice-oriented project, which demonstrates that the student has acquired the following knowledge, skills and competencies. Furthermore, the purpose of the project is that the student methodically documents his or her abilities to process a complex problem in relation to a specific project in the internship company<sup>3</sup>. In addition, the aim is that the student practises and demonstrates the ability to combine knowledge from the compulsory educational elements with the elective lines of specialisation, so that the student may relate to the company’s work tasks more easily.

The final examination project must be drawn up based on collected information and should demonstrate that the student is able to process, analyse and assess the collected information by means of theory and methods introduced through the study programme. Financial deliberations and elements must be included in the project as part of the grounds on which the conclusion of the project is drawn and the solution for future action chosen<sup>4</sup>. Likewise, both field and desk research must be included in the project. The project’s overall topic has to be formulated by the student in collaboration with Cphbusiness and the internship company, as the purpose of the project is to find solutions to a practice-based problem.

Cphbusiness assigns the student a supervisor and approves the topic as well as the initial problem statement of the project<sup>5</sup>. The final examination project must be based on an issue that is central to both the programme and the elected line of specialisation, and it is anticipated that the final project illustrates the competence profile of a Service, Hospitality and Tourism student.

### Learning Objectives:

**Knowledge**

The student must:

- be knowledgeable about relevant theories and methods within the

---

<sup>3</sup> The student has to notify Cphbusiness in writing, and in addition hereto receive an approval from Cphbusiness, if he or she wants to write the final examination project about another company than the internship company.

<sup>4</sup> Examples of financial deliberations could be various types of budgeting (cashflow budgets, revenue and expenditure budgets, budgets for start-ups, etc.), or it could be deliberations on the company’s accounting, financing, investments, other calculations or, wholly or partially, quantitative cost-benefit analyses.

<sup>5</sup> Please note that only minor alterations to the initial problem statement are allowed once it has been approved by the supervisor. Therefore, students are advised to consult any such changes with their respective supervisors.
compulsory modules of the programme as well as within the chosen specialisation

**Skills**
The student must be able to:
- apply and combine a comprehensive range of skills and abilities, which are related to the different fields of the service industry
- assess practice-oriented issues and adjust working procedures and processes
- explain, assess and communicate practice-oriented issues and possible solutions to stakeholders
- apply central economic methods and analyses

**Competencies**
The student must be able to:
- identify his or her personal potential for development
- take part in development-oriented and/or cross-functional work processes and identify management and planning functions

**Examination and Evaluation:**
- 4th semester: Final Examination Project

The final examination project exam includes an individual oral exam (60 minutes incl. discussion of the examinee’s performance). One single grade is given according to the 7-point grading scale. The examiner will notify the student of the grade once the decision is made, meaning in continuation of the examination. The final examination project is subject to a specific set of rules and regulations stipulated by Cphbusiness. These are available in local documents relevant to the programme.

6. **OTHER RULES**

6.1. **Credit Transfer and Change of Study Programme**

In some cases, Cphbusiness may be able to transfer ECTS and educational elements, or parts hereof, completed at other educational institutions, provided that the elements in question correspond to elements included in this curriculum. Cphbusiness bases the decision about a possible credit transfer on an assessment of the element’s content, level etc.

A transferable educational element from a stay abroad will be regarded as successfully completed, if the student has passed the element in accordance with the rules and regulations in effect at the educational institution, at which the element was taken.
Students are obliged to notify Cphbusiness of any previously passed educational elements at a higher educational level, which includes educational elements from both Danish and foreign higher educational institutions, presumed to be transferable. Cphbusiness handles all applications for credit transfer according to these rules.

**Change of study programme**
A student requesting a change to another study programme at the same educational institution or at another educational institution or requesting transfer to the same programme at another educational institution shall apply for enrolment at the relevant programme. Change of study programmes are regulated by the rules that apply at the receiving educational institution.

Transfer to the same study programme at another educational institution can only take place after the student has passed study elements equivalent to the first year of the study programme, to which the applicant wishes to change or transfer, or to which the applicant wants to be admitted, at the receiving institution.

It shall be a condition for enrolment that the study programme has vacant places. Under special circumstances, the receiving institution may permit that transfer within the same programme may take place through enrolment even though the applicant has not passed study elements equivalent to the first year, cf. the Admission and Enrolment Order section 35, subsection 2.

**6.2. Exemptions from the Curriculum**
Under special circumstances, Cphbusiness is entitled to grant exemptions from certain rules stipulated in this curriculum. Students have to submit a request for exemption, which must specify and document the reasons for exemption. Cphbusiness will subsequently process the request and notify the student of the decision once it is made.
